

JDC Junction Funding Application

Applications must be processed through a registered or associated charity, or able to provide a fiscal sponsor. We recommend that **before applying**, you **contact us** by email to Junction at **junction@jdc.org** or directly, if you have details, to a Junction staff member. This call will help us to better understand your vision and assess your eligibility, as well as providing you with some helpful tips to continue moving forward.

JDC Junction has one central question that serves at the core of the grant awarding decision-making process – does the project have a long-term strategic value with regards to increased meaningful "community" engagement and/or "leadership" development? As such, grants typically fall into two categories/areas:

• "Community engagement"

Community in the sense of local, regional, national, pan-European

"Leadership development"

That being leaders of the young initiative itself and emerging leaders/professionals for the broader community institutions

Example of projects in these fields include:

- Eg: leadership training for a local organisation OR leadership training for the creation of a national leadership program
- E.g. projects for increased representation of smaller communities on the national level OR projects resulting in increased engagement within broader community life
